Introduction	2
Logging in to the SSO Dashboard	2
Reset Password Page	5

1. Introduction

The intent of this document is to assist the user in being able to log in correctly to the SSO Dashboard as well as finding the reset password page so a user can reset their password.

2. Logging

Logging to one's account signifies that the user is able to input their credentials in the login page and if they are correct, they are able to have access to the dashboard where they are able to sign in any of the apps that are in that page.

- a. **Navigate to the Login Page by clicking on Login in the navbar**
